

TYNGO Meal Access

Make Your Buffet Run Smoothly, Efficiently, and Paper-free.

A solution to control the access to your
breakfast and buffet.

Benefits

- GUEST EXPERIENCE**
Less time spent in queues with faster seating and a smoother service.
- STAFF EXPERIENCE**
No more searching through printed lists or manual paperwork.
- PROFITABILITY**
Reduce costs and free up staff to pass tables onto the next guests.
- BETTER SATISFACTION**
Minimize disputes and increase guest satisfaction for better reviews.

Highlights

Oracle Hospitality Integration
Integrate with Oracle OPERA Cloud and MICROS Symphony.

Room and Name Search
Use a web browser to check meal bookings.

RFID Ready
Automate the process with room cards or RFID wristbands.

Settings
Support for multiple guests per room, real-time updates, and more.

TYNGO is a global provider of software development solutions for businesses within the hospitality and leisure industries. Founded in 2011 as a development arm of HRS Hospitality & Retail Systems, it has grown to provide software development services across 92 markets, expanding to a further 24 countries in 2024.
